Information Regarding Forward-Looking Statements

This presentation and the statements made during our Earnings Call may contain certain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are intended to be covered by the safe harbors created by those laws. These forward-looking statements include information about possible or assumed future results of our operations.

All statements, other than statements of historical facts, included in this document that address activities, events or developments that we expect or anticipate may occur in the future, including those relating to our anticipated financial results for the first quarter ended March 31, 2019, the market performance of our business segments, our acquisition of the Hays Companies (“Hays”), our financial projections regarding Hays, quarterly interest expense, share repurchases, margin expansion, changes in exposure units, the pipeline of acquisition candidates, future capital expenditures, growth in commissions and fees including Organic Revenue growth, business strategies, competitive strengths, goals, the benefits of new initiatives, plans, and references to future successes are forward-looking statements. Also, when we use words such as ‘anticipate’, ‘believe’, ‘estimate’, ‘expect’, ‘intend’, ‘plan’, ‘probably’ or similar expressions, we are making forward-looking statements.

There are important uncertainties, events and factors that could cause our actual results or performance to differ materially from those forward-looking statements contained in this document or made during our Earnings Call, including the following: our determination as we finalize our financial results for the first quarter that our financial results differ from the current preliminary unaudited numbers set forth herein; our integration of the acquisition of Hays, including adequately addressing any matters analyzed in the due diligence process, and material adverse changes in the business and financial condition of Hays, us, or both, and our respective customers; the impact of any regional, national or global political, economic, business, competitive, market, environmental or regulatory conditions on our business operations; the impact of current market conditions on our results of operations and financial condition; risks that could negatively affect the success of our acquisition strategy, including continuing consolidation in our industry, which could make it more difficult to identify targets and could make them more expensive, execution risks, integration risks, the risk of post-acquisition deterioration leading to intangible asset impairment charges, and the risk we could incur or assume unanticipated regulatory liabilities such as those relating to violations of anti-corruption and sanctions laws; any insolvencies of, or other difficulties experienced by our clients, insurance carriers or financial institutions; volatility or declines in insurance markets and premiums on which our commissions are based, but which we do not control; our ability to continue to manage our indebtedness; our ability to compete effectively in our industry, material changes in commercial property and casualty markets generally or the availability of insurance products or changes in premiums resulting from a catastrophic event, such as a hurricane; disintermediation within the insurance industry, including increased competition from insurance companies, technology companies and the financial services industry, as well as the shift away from traditional insurance markets; our ability to attract and retain key employees and clients and attract new business; our ability to maintain our corporate culture; the timing or ability to carry out share repurchases; the timing or ability to carry out refinancing or take other steps to manage our capital and the limitations in our long-term debt agreements that may restrict our ability to take these actions; fluctuations in our earnings as a result of potential changes to our valuation allowance(s) on our deferred taxes; any fluctuations in exchange and interest rates that could affect expenses and revenue; the potential costs and difficulties in complying with a wide variety of laws and regulations and any related changes; changes in the tax or accounting policies or treatment of our operations and fluctuations in our tax rate; any potential impact of U.S. healthcare or National Flood Insurance Program legislation; the impact of federal and state income tax reform; the impact of the recent federal government shutdown and the possibility of a future federal government shutdown; uncertainties in U.S. administrative policy regarding trade agreements and international trade relations; exposure to potential liabilities arising from errors and omissions and other potential claims against us; and the interruption or loss of our information processing systems or failure to maintain secure information systems and other factors that the Company may not have currently identified or quantified, and other risks, relevant factors and uncertainties identified in the Company’s Annual Report on Form 10-K for the year ended December 31, 2018, and the Company’s other filings with the Securities and Exchange Commission. All forward-looking statements made herein are made only as of the date of this presentation, and the Company does not undertake any obligation to publicly update or correct any forward-looking statements to reflect events or circumstances that subsequently occur or of which the Company hereafter becomes aware.

Many risks and uncertainties may impact the matters addressed in these forward-looking statements. Information about such risks and uncertainties may be found in our filings with the Securities and Exchange Commission. These risks and uncertainties could cause our results or performance to differ materially from those we express in our forward-looking statements.

Information Regarding Non-GAAP Financial Measures

This presentation contains references to "non-GAAP financial measures" as defined in SEC Regulation G including, Net Income – Adjusted, EBITDAC, EBITDAC Margin, Income Before Income Taxes – Adjusted, Income Before Income Taxes Margin – Adjusted, Diluted Net Income Per Share – Adjusted, and Organic Revenue. We present these measures because we believe such information is of interest to the investment community and because we believe it provides additional meaningful methods of evaluating certain aspects of the Company's operating performance from period to period on a basis that may not be otherwise apparent on a generally accepted accounting principles ("GAAP") basis. This supplemental financial information should be considered in addition to, not in lieu of, the Company's consolidated income statements and balance sheets as of the relevant date. Consistent with Regulation G, a description of such information is provided below and a reconciliation of such items to GAAP information can be found in our periodic filings with the SEC. Our method of calculating these non-GAAP financial measures may differ from the methods used by industry peers and, therefore, comparability may be limited.

Revenue Measures – We believe that Organic Revenue, as defined below, provides a meaningful representation of the Company's operating performance and improves the comparability of results between periods by eliminating the impact of certain items that have a high degree of variability. The Company has historically viewed Organic Revenue growth as an important indicator when assessing and evaluating the performance of its four segments.

- **Organic Revenue**, a non-GAAP measure, is defined as commissions and fees less (i) the first twelve months of commission and fee revenues generated from acquisitions, less (ii) profit-sharing contingent commissions (revenues from insurance companies based upon the volume and the growth and/or profitability of the business placed with such companies during the prior year - "contingents"), less (iii) guaranteed supplemental commissions (commissions from insurance companies based solely upon the volume of the business placed with such companies during the current year - "GSCs"), and less (iv) divested business (net commissions and fees generated from offices, and books of business sold by the Company) with the associated revenue removed from the corresponding period of the prior year. Organic Revenue can be expressed as a dollar amount or a percentage rate when describing Organic Revenue growth. We view Organic Revenue and Organic Revenue growth as important indicators when assessing and evaluating our performance on a consolidated basis and for each of our segments, because it allows us to determine a comparable, but non-GAAP, measurement of revenue growth that is associated with the revenue sources that were a part of our business in both the current and prior year and that are expected to continue in the future.

Earnings Measures – We believe these non-GAAP measures, as defined below, provide a meaningful representation of the operating performance of the Company and improve the comparability of results between periods by eliminating the impact of certain items that have a high degree of variability.

- **Net Income – Adjusted** is defined as net income, excluding the after-tax change in estimated acquisition earn-out payables
- **EBITDAC** is defined as income before interest, income taxes, depreciation, amortization and the change in estimated acquisition earn-out payables.
- **EBITDAC Margin** is defined as EBITDAC divided by total revenues.
- **Income Before Income Taxes – Adjusted** is defined as income before income taxes, excluding the pre-tax change in estimated acquisition earn-out payables.
- **Income Before Income Taxes Margin – Adjusted** is defined as Income Before Income Taxes Margin¹ – Adjusted divided by total revenues.
- **Diluted Net Income Per Share – Adjusted** is defined as diluted net income per share, excluding the change in estimated acquisition earn-out payables.

(1) "Income Before Income Taxes Margin" is defined as income before income taxes divided by total revenues.

Business and Market Commentary

Total revenue growth primarily driven by acquisition activity. Organic Revenue growth realized in most lines of business.

Coastal property rates generally flat to up 5% depending upon loss experience. Continued increases in auto and employee benefits rates. Workers' compensation rates continued to decline.

Income before income taxes grew slower than total revenues due to higher intercompany interest expense and amortization associated with new acquisitions.

EBITDAC grew faster than total revenues driven by increased contingent commissions and leveraging the growth in organic revenues.

National Programs Segment

(\$ Millions; Unaudited)	First Quarter			
	<u>2019</u>	<u>2018</u>	<u>\$ Change</u>	<u>% Change</u>
Total revenues	\$109.6	\$112.5	(\$2.9)	(2.6%)
<i>Organic Revenue</i>	<i>\$105.7</i>	<i>\$108.2</i>	<i>(\$2.5)</i>	<i>(2.3%)</i>

<i>EBITDAC Margin</i>	<i>30.1%</i>	<i>32.1%</i>		<i>(200bps)</i>

Business and Market Commentary

Decrease in total revenues driven primarily by lower flood claims activity and lower contingent commissions, partially offset by revenues from acquisitions.

Organic Revenue decrease driven substantially by lower flood claims revenue as compared to the prior year.

Income before income taxes declined faster than total revenues due to lower contingent commissions and flood claims activity partially offset by lower intercompany interest expense.

EBITDAC declined faster than total revenues due to lower contingent commissions and flood claims activity.

Wholesale Brokerage Segment

(\$ Millions; Unaudited)	First Quarter			
	2019	2018	\$ Change	% Change
Total revenues	\$70.5	\$66.1	\$4.4	6.7%
<i>Organic Revenue</i>	\$65.7	\$63.6	\$2.1	3.3%
Income before income taxes	\$15.6	\$11.4	\$4.2	36.8%
<i>Income Before Income Taxes Margin</i>	22.1%	17.2%		490bps
EBITDAC	\$20.1	\$17.6	\$2.5	14.2%
<i>EBITDAC Margin</i>	28.5%	26.6%		190bps

Business and Market Commentary

Total revenue growth driven by organic growth, acquisitions and slightly higher contingent commissions. Organic Revenue growth driven by economic expansion across most industries and geographies.

Coastal property rates generally flat to up 5% depending upon loss experience. General property rates are flat to up 3%. Personal lines rates up 5-15%. Professional lines rates are generally down 3-5%.

Growth in income before income taxes outpaced total revenue growth primarily due to a lower charge for estimated acquisition earn-out payables.

EBITDAC increased faster than total revenues due to higher contingent commissions and the leveraging of the growth in organic revenues.

Services Segment

(\$ Millions; Unaudited)

First Quarter

	2019	2018	\$ Change	% Change
Total revenues	\$49.5	\$44.1	\$5.4	12.2%
<i>Organic Revenue</i>	\$44.2	\$44.0	\$0.2	0.5%

<i>Income Before Income Taxes Margin</i>	18.6%	20.0%		(140bps)
EBITDAC	\$11.8	\$10.9	\$0.9	8.3%
<i>EBITDAC Margin</i>	23.8%	24.7%		(90bps)

Business and Market Commentary

Total revenue growth driven primarily by acquisition activity.

Organic Revenue impacted by lower claims in our Social Security advocacy business due to the previous completion of advocacy work on a book of business substantially offsetting organic growth in other businesses.

Income before income taxes grew slower than total revenues as a result of a gain on disposal recorded in the prior year and higher intercompany interest charges associated with acquisitions.

EBITDAC growth was slower than growth in total revenues due to a gain on disposal recorded in the prior year.

Closing Comments

Economic outlook remains good, continuing to monitor potential impact of trade relations

Expect premium rates to remain competitive with upward pressure on certain lines – watching reinsurance rates

M&A pipeline remains good and we are actively engaging with many potential candidates

Continue disciplined approach to deployment of capital

Good momentum across all four segments
